On the eve of his trial Sulzer appears confident. So, for that matter, do his enemies. They say that the Ccurt of Impeachment will not be affected in any way by the feeling of popular sympathy for Sulzer. It will be a cold, calm proposition of whether Sulzer was or was not guilty of malfeasance in office. A question of whether, as charged by the assembly, he did or did not speculate in Wall street with campaign funds and of whether he did or did not fail to give a true and correct list of his campaign contributions in his sworm statement of campaign I receipts and expenditures.

It is lessible that a dramatic, perhaps pathetic touch will be given the proceedings by the introduction of the name of Mrs. Sulzer. It is said to be likely that Mrs. Sulzer will stand by the statement credited to her in which she is alleged to have said that it was she who speculated in Wall street with campaign funds without the governor's knowledge.
